

Parents and teachers know that the key to success begins at home. For non-English speaking students, the need for parent participation is even more important. I am excited to announce a grant for the College of Lake County to launch an Hispanic adult reading program. Families Involved in Reading Stories Together (FIRST) will help parents learn English and improve parenting skills while offering developmental education for children. I want to thank the members of our 10th District Latino Advisory Board for their hard work on this project.
